

Do any of these integration challenges resonate with your experience?

Revenue loss due to lengthy integration processes

Challenges with scalability, reusability, and accessing pre-built integrations

Difficulty in deploying new features to existing integrated clients

Over-investing in integration instead of product development

Losing market opportunities due to slow integration development

Using your last customer integration as a template and crossing your fingers for success

Meet The Cloud Connectors!

The Cloud Connectors (TCC) is a leading provider of Integration Platform as a Service (iPaaS) solutions, specializing in seamless HR integrations.

With over 20 years of experience, 1,000+ successful projects, and 3,000+ integrations achieved, TCC has established itself as a trusted partner for organizations seeking to streamline their HR tech ecosystems.

We are proud to be the trusted integration partner for some of the largest enterprises in HR, including Oracle HCM, UKG, and other industry leaders.

Integrations @ Scale

What is TCC iPaaS?

(The Cloud Connectors' Integration Platform as a Service)

The Cloud Connectors' Integration Platform as a Service (iPaaS) is a **comprehensive software platform** designed to seamlessly integrate diverse systems and applications. It offers robust, **customizable, and scalable integration** capabilities, ensuring efficient data flow and connectivity across your tech ecosystem.

Cloud Data Language™

Leverage TCC's proprietary Cloud Data Language for streamlined ETL processes. Simplify complex data transformations with our innovative technology.

Unified Interface

A dynamic, user-friendly platform showcasing TCC's unique features and allowing easy exploration of specific functionalities.

API Management

Build and publish APIs to trigger integrations, enabling seamless automation and real-time processing. Create customizable forms for manually triggered workflows, allowing business users to handle specific use cases like reprocessing and error handling.

File Management

Built-in file management system with SFTP interfaces for seamless in/out transfers. Supports external SFTP servers and a complete set of file connectors (Flat file formats, XML, JSON, YAML).

270+ Pre-Built Smart Connectors

Accelerate your integration process with our extensive library of over 270 pre-built smart connectors.

Comprehensive Onboarding & Support

Benefit from our comprehensive support system, including training, tutorials, and guides. **Our managed services team will also be committed to your success every step of the way.**

Data Health and Monitoring Alerts

Ensure the integrity of your data with our advanced monitoring system. Receive timely alerts for any potential issues, allowing for proactive management.

3,300+ Integrations

- Over 3,300 seamless integrations achieved, elevated integration success rate

1,000+ Projects

- Over 1,000 accomplished projects, a track record of project excellence

20+ Years of HR Integrations Experience

- Two decades of industry expertise, unparalleled mastery in the field

NPS score of 94

Smart Connectors

Why Choose TCC's iPaaS?

"What we liked best about The Cloud Connectors is their responsiveness, their partnership approach, their availability and expertise, and, moreover, their open iPaaS (Integration Platform as a Service) and training support.

This has allowed us to create many of our required UKG integrations ourselves and create a platform on which we can continue to build."

Steve Champion
 Director of HRIS & HR Technology ,
 Travel + Leisure Co.
 Enterprise(> 1000 emp.)

"The Cloud Connectors' iPaaS solution has been a game-changer for Signify Health. Their White Glove approach and deep expertise in integrating various platforms, from Oracle to ADP, ensured a smooth implementation tailored to our unique needs. We've seen significant improvements in data accuracy, compliance, and efficiency, allowing us to redirect our focus to value-added tasks. **The Cloud Connectors' dedication to getting the job done right, within the specified timeline, has made them an indispensable partner.**"

Kamal Pradhan
 Vice President of HR Tech and
 Operations, Signify Health
